

DOWNTOWN BOONE

Parking 101

Parking Key

Red means private or reserved. These spaces are reserved for specific businesses. Town regulations state the business in question must provide signage to warn motorists of its status. Don't park in these spaces unless you intend to immediately visit the business associated with the lot. Some lots employ wheel-lock devices which require a \$60 cash-removal fee for vehicles in violation.

1. The lot in front of the Market Place at King Street is policed by a lot-management firm and uses wheel locks. Parking is for visitors to those businesses only.
2. The lot across from Wilcox Emporium uses a lot-management firm as in #1. Customers parking only please.
3. This lot is reserved for the Watauga County Public Library. For more details on its parking policy, call the library at 264-8784.

Blue means parking is regulated by meters BUT the Queen Street meters are free on the weekends (after 5 p.m. Friday until Monday at 7 a.m.) Also free on weeknights after 5 p.m.

Green means parking is free but limited to one hour. Most streetside spaces (slanted and parallel) are one-hour. However, parking time is unlimited after 5 p.m. on Friday until Monday at 7 a.m. Also unlimited on weeknights after 5 p.m.

Purple means park and pay by the hour (the lot at town hall off King Street). This lot is free on weekends and weeknights.

Downtown Boone boasts 77 vibrant businesses and features world-class shopping, dining and entertainment. Finding a parking place downtown is no problem if you know where to look. We hope this map will help you navigate downtown and find the right parking spot for your vehicle.

When parking, please be sure to read all signs. If you park in a one-hour space for more than one hour, you may receive a citation. However, most downtown merchants will validate your ticket without delay. Check the color-coded parking key to the left to find the status of various downtown spaces. For more information, contact the Downtown Boone Development Association at 262-4532.
